

Tobra FeatherFlow

Soft and Lightweight Tubing with Adjustable Airflow Regulator

"Tobra FeatherFlow is elegant, soft, and lightweight, unlike conventional suction tubing that is rigid, heavy, and has memory."

— Neuro Surgeon

Tobra FeatherFlow

"The adjustable tear drop connector allows for controlled and consistent suction flow, allowing me to focus on the patient and not my thumb on a tear drop suction instrument."
— Otologist

KEY FEATURES

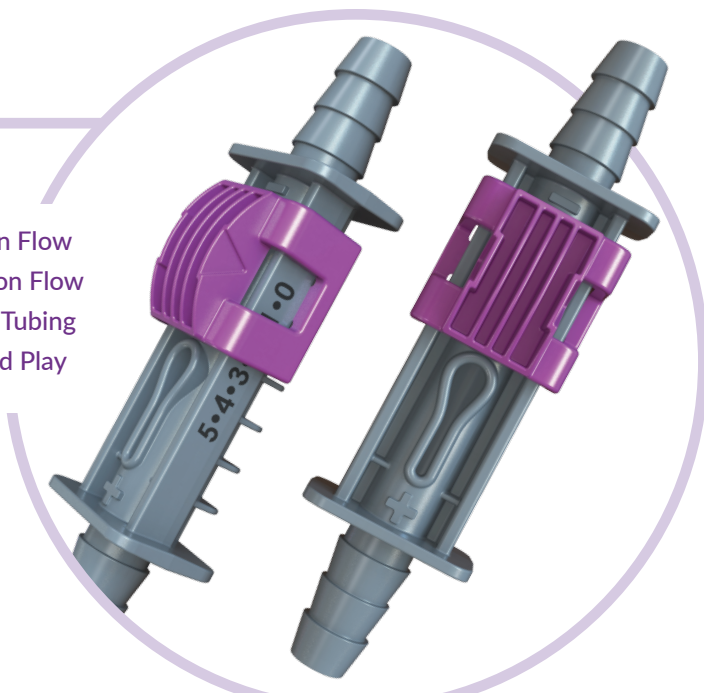

Lightweight Tubing - 4ft and Latex-Free

- Lightweight = Reduce Fatigue
- Soft = Rests Easily in Hand
- Flexible/Elastic = No Memory, Kinks, or Rigidity
- Suction Instrument Connection = No Heavy Connector

Adjustable Suction Flow

- Tear Drop Opening = Precise and Controlled Suction Flow
- Airflow Settings = Repeatable and Consistent Suction Flow
- Graduated Port = Connects to All Standard Suction Tubing
- Tubing Pre-Assembled to Connector = Easy Plug and Play
